## Company Announcement

Soledad, Calif. – Dec. 27, 2024 – Braga Fresh is voluntarily issuing a precautionary advisory of a single production lot of washed and ready-to-eat 12oz Marketside Broccoli Florets with best if used by date Dec 10, 2024.

**This product is past its best if used by date and is no longer in stores, but consumers may have frozen the item for later use. Consumers who have this product in their freezers should not consume and discard the product.**

This advisory is being initiated due to possibility of contamination with *Listeria monocytogenes*. The potential for contamination was discovered during random sampling by Texas Health & Human Services from a Texas store location where one of multiple samples yielded a positive test result.

**To date, no illnesses have been reported in connection with this product.**

*Listeria monocytogenes is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, Listeria monocytogenes infection can cause miscarriages and stillbirths among pregnant women.*

The specific product involved are 12oz bags of Marketside Broccoli Florets sold at Walmart stores identified by having a **UPC code 6 81131 32884 5** on back of bag, with **Best if Used by Date Dec 10, 2024**, and **Lot Code: BFFG327A6** on front of bag. All potentially affected products are past their expiration date and no longer for sale. **This voluntary advisory does not apply to any other Marketside or Braga Fresh produced products.**

Consumers who have this product in their possession should not consume and discard the product. The only products involved in this advisory can be identified with the following details:

### About Feeding America Recall Notices

The Feeding America national office issues notifications of all national Class I and II recalls--those involving a

health hazard situation in which there is reasonable probability that eating the food will cause health problems or death--and other recalls that may affect the safety of food supplied to network members.

The national office strongly encourages all member product solicitors, operations managers, and others involved in food and grocery distribution to regularly consult resources provided by the United States Food and Drug Administration (FDA) at <http://www.fda.gov/opacom/7alerts.html>, and the United States Department of Agriculture (USDA) at [http://www.fsis.usda.gov/Fsis\\_Recalls/index.asp](http://www.fsis.usda.gov/Fsis_Recalls/index.asp). Additionally, members can often receive information on national, state, and local recalls by contacting their local health departments.
