## Company Announcement

TFP Nutrition is **expanding their voluntary recall** that was initiated to include all dry dog, dry cat, and catfish formulas manufactured in their Nacogdoches, Texas, facility. The recall of these production codes is being conducted due to the potential for *Salmonella* contamination.

Individuals handling dry pet food can become infected with *Salmonella*, especially if they have not thoroughly washed their hands after having contact with surfaces exposed to this product. Healthy people infected with *Salmonella* should monitor themselves for some or all of the following symptoms: nausea, vomiting, diarrhea or bloody diarrhea, abdominal cramping, and fever. Rarely, *Salmonella* can result in more serious ailments, including arterial infections, endocarditis, arthritis, muscle pain, eye irritation, and urinary tract symptoms. Consumers exhibiting these signs after having contact with this product should contact their healthcare providers. Children, the elderly, and individuals with compromised immune systems may be at greater risk of *Salmonella* infection.

Pets with *Salmonella* infections may be lethargic and have diarrhea or bloody diarrhea, fever, and vomiting. Some pets will have may only exhibit decreased appetite, fever, and abdominal pain. Infected but otherwise healthy pets can be carriers and infect other animals or humans. If your pet has consumed the recalled product and has these symptoms, please contact your veterinarian.

The company is working directly with retailers to remove the impacted product from the supply chain. Consumers who have purchased any of the formulas listed below with these specific date codes should immediately stop feeding the affected products to your pets and dispose of any product and packaging. TFP Nutrition apologizes for any potential issues this may have caused pet owners and their pets.

Pet owners who are unsure if the product they purchased is included in the recall may visit [tfpnutrition.com/recall](https://www.tfpnutrition.com/recall)[External Link Disclaimer](#). Please be ready to provide the product name, product size, and manufacture date or lot code which can be found on the back of the bag. Pet owners may also reach out via phone by calling 1-866-311-1323.

The dry dog, dry cat, and catfish food recall is an expansion of an Oct. 20, 2023 limited voluntary recall that included 50-pound bags of Retriever Mini Chunk Chicken Recipe with manufacturing dates from 3277 TFP to 3278 TFP **distributed in Arkansas, Arizona, California, Louisiana, Mississippi, New Mexico, Nevada, Oklahoma, Texas and Utah.**

**Dry Dog Formulas** (as listed in the below attached chart)

**Dry Cat Formulas** (as listed in the below attached chart)

**Floating Catfish Formulas** (as listed in the below attached chart)

The date code is printed on the back of the bag near the bottom. Please use the example graphic below and the “MFG From” column associated with your formula to see if your product is affected. The XXXXX is the timestamp when the bag was packaged.

**\* We believe that the products being recalled were processed or offered through the national office. If we identify that your organization was sent any of this recalled product we will contact you in a separate email with more specific information.**

\* We strongly encourage you to notify your agencies within one business day from receipt of this notice.

\* ALL cased and uncased inventories, both at the member level and agency level, need to be checked. This product may have entered member and agency warehouses through salvage, local donations, TEFAP, local purchases, retail pickups, food drives, or other avenues.

\* For additional local details, please contact the Health Department(s) for the area(s) your food bank serves.

#### **About Feeding America Recall Notices**

The Feeding America national office issues notifications of all national Class I and II recalls--those involving a health hazard situation in which there is reasonable probability that eating the food will cause health problems or death--and other recalls that may affect the safety of food supplied to network members.

The national office strongly encourages all member product solicitors, operations managers, and others involved in food and grocery distribution to regularly consult resources provided by the United States Food and Drug Administration (FDA) at <http://www.fda.gov/opacom/7alerts.html>, and the United States Department of Agriculture (USDA) at [http://www.fsis.usda.gov/Fsis\\_Recalls/index.asp](http://www.fsis.usda.gov/Fsis_Recalls/index.asp). Additionally, members can often receive information on national, state, and local recalls by contacting their local health departments.
