Subject: FW: August Egg Company Recalls Shell Eggs Because of Possible Health Risk
Date: Wednesday, June 11, 2025 10:11:26 AM

Summary

Company Announcement Date:

June 06, 2025

FDA Publish Date:

June 06, 2025

Product Type:

Food & Beverages

Reason for Announcement:

Salmonella

Company Name:

August Egg Company

Brand Name:

Multiple brand names

Product Description:

Brown cage free and brown certified organic eggs

Company Announcement

August Egg Company of Hilmar, CA is recalling 1,700,000 dozen brown cage free and brown certified organic eggs, because they have the potential to be contaminated with *Salmonella*, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with *Salmonella* often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with *Salmonella* can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

The eggs were distributed from February 3, 2025, through May 15, 2025, with sell by dates from March 4, 2025, to June 4, 2025, within California and Nevada. The eggs were distributed at retail locations including Save Mart, FoodMaxx, Lucky, Smart & Final, Safeway, Raleys, Food 4 Less and Ralphs.

The eggs were also distributed from February 3, 2025, through May 6, 2025, with sell by dates from March 4, 2025, to June 19, 2025, to Walmart locations in California, Washington, Nevada, Arizona, Wyoming, New Mexico, Nebraska, Indiana and Illinois.

The recalled eggs will have printed on the carton or package a plant code number P-6562 or CA5330 with the Julian Dates between 32 to 126. The recalled retail eggs will be in fiber or plastic cartons, with the above codes printed on one side of the carton. **(See photo following for Julian date location.)**

This recall is associated with an ongoing outbreak investigation of *Salmonella* Enteritidis illnesses. Products were distributed in AZ, CA, IL, IN, NE, NM, NV, WA and WY.

August Egg Company is not selling fresh shell eggs at this time. Our firm has voluntarily been diverting eggs to an egg-breaking plant for over 30 days, which pasteurizes the eggs and kills any potential foodborne pathogens.

Consumers who may have eggs produced in this plant, as identified by the plant code on one side of the egg carton, should return it to their place of purchase for a full refund. Further questions may be directed to the company at 1-800-710-2554, between 9am and 5pm PT.

#####

Additional Comments from August Egg Company:

“August Egg Company of Hilmar, CA is voluntarily recalling 1,700,000 dozen shell eggs processed at our California plant and sold to various grocery customers. This recall has been initiated due to possible *Salmonella* enteritidis contamination, which poses a health risk. With that in mind, we believe it is appropriate out of an abundance of caution to conduct this voluntary recall, as consumers may still have these eggs in their homes.

“It is important to know that when our processing plant identified this concern, we immediately began diverting all eggs from the plant to an egg-breaking facility, which pasteurizes the eggs and kills any pathogens.

“August Egg Company’s internal food safety team also is conducting its own stringent review to identify what measures can be established to prevent this situation from recurring. We are committed to addressing this matter fully and to implementing all necessary corrective actions to ensure this does not happen again.”

* We believe that none of the product being recalled were processed or offered through the national office

* We strongly encourage you to notify your agencies within one business day from receipt of this notice.

* ALL cased and uncased inventories, both at the member level and agency level, need to be checked. This product may have entered member and agency warehouses through salvage, local donations, TEFAP, local purchases, retail pickups, food drives, or other avenues.

* For additional local details, please contact the Health Department(s) for the area(s) your food bank serves.

About Feeding America Recall Notices

The Feeding America national office issues notifications of all national Class I and II recalls--those involving a health hazard situation in which there is reasonable probability that eating the food will cause health problems or death--and other recalls that may affect the safety of food supplied to network members.

The national office strongly encourages all member product solicitors, operations managers, and others involved in food and grocery distribution to regularly consult resources provided by the United States Food and Drug Administration (FDA) at <http://www.fda.gov/opacom/7alerts.html>, and the United States Department of Agriculture (USDA) at http://www.fsis.usda.gov/Fsis_Recalls/index.asp. Additionally, members can often receive information on national, state, and local recalls by contacting their local health departments.
